

**VOLUNTARY CLEANUP CONTRACT  
16-6434-NRP**

**IN THE MATTER OF  
AATCO TRANSMISSION, BERKELEY COUNTY  
and  
OS PERFORMANCE SHOP, LLC**

This Contract is entered into by the South Carolina Department of Health and Environmental Control and OS Performance Shop, LLC, with respect to the Property located at 1250 Yeamans Hall Road, Hanahan, Berkeley County, South Carolina. The Property contains approximately 0.397 acres, more or less, identified by Berkeley County Tax Map Serial Number 265-15-06-040. In entering this Contract, the Department relies on the representations contained in the "Non Responsible Party Application for Voluntary Cleanup Contract" of October 10, 2016, and any amendments thereto, by OS Performance Shop, LLC, which is incorporated into this Contract and attached as Appendix A.

**AUTHORITY**

This Contract is entered into pursuant to the Brownfields/Voluntary Cleanup Program, S.C. Code Ann. §§ 44-56-710, et seq. (2002 & Supp. 2015, as amended); the South Carolina Hazardous Waste Management Act (SCHWMA), S.C. Code Ann. §§ 44-56-10, et seq. (2002 & Supp. 2015, as amended); the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA), 42 U.S.C. §§ 9601, et seq. (1994); the State Underground Petroleum Environmental Response Bank Act, (SUPERB Act), S.C. Code Ann. §§ 44-2-10, et seq. (2002 & Supp. 2015, as amended); and the Pollution Control Act, §§ 48-1-10 et seq. (2008 & Supp. 2015, as amended).

**DEFINITIONS**

1. Unless otherwise expressly provided in this Contract, terms used herein shall have the meaning assigned to them pursuant to the Brownfields/Voluntary Cleanup

Program, and if not set forth therein, shall have the meaning assigned to them pursuant to the SCHWMA, the PCA, the SUPERB Act, or CERCLA.

- A. "OSP" means OS Performance Shop, LLC and/or its assign, or Old School Performance, LLC doing business as OS Performance.
- B. "Beneficiaries" means OSP's Non-Responsible Party lenders, signatories, parents, subsidiaries, and successors, including new purchasers, lessees, and other parties acquiring an interest in any portion of the Property, but only to the extent that such parties have never been a Responsible Party at the Site.
- C. "Contamination" means the presence of a contaminant, pollutant, hazardous substance, petroleum, or petroleum product.
- D. "Contract" means this Voluntary Cleanup Contract.
- E. "Department" means the South Carolina Department of Health and Environmental Control, or a successor agency of the State of South Carolina that has responsibility for and jurisdiction over the subject matter of this Contract.
- F. "Existing Contamination" shall mean any Contamination present on, or under, the Site as of the execution date of this Contract.
- G. "Lease" shall mean that lease agreement by and between OSP and the current owners allowing OSP to lease and occupy the Property upon execution of the VCC, and then allow operations to begin once all soil samples and base line data has been obtained and acknowledged received by Department, through to OSP's receipt of the formal Certificate of Completion from the Department, and beyond as necessary.

- H. "Property" means the real property as described in the Non Responsible Party Application for Voluntary Cleanup Contract attached as Appendix A, and that is subject to the ownership, prospective ownership, or possessory or contractual interest of OSP or its Beneficiaries.
- I. "Segregated Sources" means drums, tanks, or similar discrete containers that potentially hold substances that may cause Contamination upon release to the environment.
- J. "Site" means all areas where a contaminant, petroleum, or petroleum product has been released, deposited, stored, disposed of, or placed or otherwise comes to be located; "Site" does not include any consumer product in consumer use or any vessel.
- K. "Waste Materials" means any Contamination-causing solid, semi-solid, or liquid material discarded, buried, or otherwise present on the Property, and may include sludge, slag, or solid waste materials such as empty containers and demolition debris or materials containing asbestos, lead-based paint, or petroleum or other contaminants.

## FINDINGS

2. Based on the information known by or provided to the Department, the following findings are asserted for purposes of this Contract:

- A. Owners and Operators: The owners and operators of the Property include the following:

Frank S. Dubis, Dorothy A. Kochins 1951 to 1961

T. L. Bonner, Ray M. Smith, Sr. & Ray M. Smith, Jr., 1961 to 1978

a partnership of Smith, Smith & Bonner

Frank W. Moore

1978 to 1986

Jan E. Moore, John V. Moore and Jo Diane Moore, 1986 to Present

subject to a Life Estate reserved by Frank W. Moore

- B. Property and Surrounding Areas: The Property is bounded generally by Campbell Street to the north with commercial property beyond, Yeamens Hall Road to the east with commercial property beyond, to the south the Kwik Fill gas station and Loftis Road with commercial property beyond, and commercial property to the west.

The Property was developed in the early 1940's for residential use that continued through the late 1960's. Commercial use of the Property began in the early 1970's with a law office occupying the site. Since the mid 1980's the Property has been used as an automotive repair shop. The current seven bay garage structure occupying the Property was constructed in the mid 1980's. Two in ground hydraulic lifts and two above ground lifts are present in the building.

A Phase I Environmental Site Assessment Report prepared in support of this voluntary cleanup contract application (J. N. Pease Environmental Group, LLC) identifies the following recognized environmental conditions (RECs):

1. A partially buried vessel which serves as an oil water separator is located behind the northwest corner of the building covered with a metal plate. The vessel is approximately 40 square feet in area with an approximate depth of three feet. The vessel does contain waste oil.
2. A small diameter metal pipe indicative of a buried tank is located behind the northeast corner of the building. Petroleum odor and residue were apparent in the pipe.
3. Petroleum staining was observed inside the building, particularly in the

northeast interior corner. Weep holes are present at floor level along the buildings rear wall providing a pathway for possible contamination to the exterior grounds.

4. An exterior concrete "equipment wash pad" is located behind the northeast corner of the site building. Petroleum staining was observed in this area and surrounding soil.
5. Multiple unlabelled 55 gallon drums, with a presence of liquids, are located inside the building.

Adjacent and to the south of the Property is the Kwik Fill gas station (UST Permit #1234). This gas station had a documented release on December 31, 1991. A no further action status given to the release on March 22, 2004.

- C. Applicant Identification: OSP is a South Carolina limited liability company with its principal place of business located at 5903 Oak Street, Hanahan, South Carolina.
- D. OSP and the current owners entered into that Agreement for Purchase and Sale dated August 24, 2016, as amended, with such sale to commence upon completion of all terms of this Contract and issuance of a Certificate of Completion by the Department. After execution of the contract OSP shall enter into the Lease with Seller to occupy the premises until the completion of all items herein at which time the sale of the property to OSP shall consummate. The Department approved occupation of the Property by OSP subsequent to executing this contract and collection of initial samples and prior to the issuance of the Certificate of Completion.
- E. Proposed Redevelopment: OSP will acquire the Property and intends to use the Property as an automotive engine assembly and performance shop.

### CERTIFICATIONS

3. OSP has certified upon application that: 1) OSP is not a Responsible Party at the Site, or a parent, successor, or subsidiary of a Responsible Party at the Site and have not had any involvement with the Property in the past other than activities performed in anticipation of participation in the Voluntary Cleanup Program; 2) its activities and occupation of the premises as tenants under the Lease with the Seller will not aggravate or contribute to existing contamination on the Site or pose significant human health or environmental risks; and, 3) it is financially viable to meet the obligations under this Contract.

### RESPONSE ACTION

4. OSP agrees to conduct the response actions specified in the sub-paragraphs below. An initial Work Plan shall be submitted by OSP, or its designee, within thirty (30) days after the date of execution of this Contract by the Department, or such earlier or later date if approved by the Department's project manager. A report of the assessment results shall be submitted by OSP, or its designee in accordance with the schedule provided in the initial Work Plan. OSP acknowledges that the assessment may find distributions of Existing Contamination requiring additional assessment and/or corrective action on the Property that cannot be anticipated with this Contract. OSP agrees to perform the additional assessment and/or corrective action consistent with the intended uses of the Property under the purview of this Contract; however, OSP may seek an amendment of this Contract to clarify its further responsibilities. OSP shall perform all actions required by this Contract, and any related actions of OSP's choosing not expressly required by this Contract, pursuant to Work Plans and/or Addenda approved by the Department.

#### A. Work Plan Logistics:

- 1) The Work Plan(s) shall set forth a schedule and methods for assessment and corrective action activities detailed herein.
- 2) The Work Plan(s) shall be submitted to the Department in the form of one hard

copy and one electronic copy of the entire Work Plan on a compact disk (in .pdf format).

- 3) All activities undertaken pursuant to this Contract shall be consistent with S.C. statutes, regulations, and permitting requirements (e.g., stormwater management and waste disposal regulations). OSP shall identify and obtain the applicable permits before beginning any action.
- 4) The Work Plan(s) shall be in accordance with accepted industry standards and shall be signed and sealed by a Professional Engineer or Professional Geologist duly-licensed in South Carolina.
- 5) The Work Plan(s) shall provide detailed information about the proposed sampling points, collection methods, analytical methods, quality assurance procedures, and other pertinent details of the assessment and/or corrective measures activities consistent with the following:
  - a) Sample collection methodologies shall be consistent with the US EPA Region IV Field Branches Quality System and Technical Procedures.
  - b) All monitoring wells and groundwater sampling points shall be constructed in accordance with the South Carolina Well Standards, 6 S.C. Code Ann. Regs. 61-71 (2012 & Supp. 2016). The Work Plan shall provide sufficient detail to support issuance of the well approvals by the Department.
  - c) The laboratory analyses for samples taken pursuant to the Work Plan are specified in the media-specific sub-paragraphs below, but may include any of the following:
    - i. the full EPA Target Analyte List (TAL);
      - i). EPA Target Analyte List excluding cyanide (TAL-Metals);
    - ii. the full EPA Target Compound List (TCL);
      - i). EPA Target Compound List Volatile Organic Compounds (TCL-VOCs);
      - ii). EPA Target Compound List Semi-Volatile Organic Compounds (TCL-SVOCs);
      - iii). EPA Target Compound List Pesticides (TCL-Pesticides);

- iv). EPA Target Compound List Polychlorinated Biphenyls (TCL-PCBs).
- d) All analytical methods shall use appropriate detection levels to allow comparison to the media-specific screening criteria listed in the “United States Environmental Protection Agency Regional Screening Levels for Chemical Contaminants at Superfund Sites” (EPA RSLs) in effect at the time of sampling. The applicable Protection of Groundwater Soil Screening Level (SSL) shall be the “MCL-Based SSL”, if listed. If the applicable screening criteria are lower than achievable detection levels, the analytical method shall use the lowest achievable detection levels.
- 6) The Work Plan shall include the names, addresses, and telephone numbers of OSP’s consulting firm(s), analytical laboratories, and OSP’s contact person for matters relating to this Contract and the Work Plan.
  - a) The analytical laboratory shall possess applicable Certification defined in the State Environmental Laboratory Certification Program, 7 S.C. Code Ann. Regs. 61-81 (2012), for the test method(s) and parameters specified in the Work Plan.
  - b) OSP shall notify the Department in writing of any changes concerning the consulting firm(s), contact person(s), or laboratory identified in the Work Plan.
- 7) The Department will notify OSP in writing of approvals or deficiencies in the Work Plan.
- 8) OSP, or its designee, shall respond in writing within thirty (30) days of receipt of any comments on the Work Plan by the Department.
- 9) OSP shall begin implementation of the Work Plan as soon as reasonably possible after receipt of written approval of the Work Plan by the Department.
- 10) OSP shall inform the Department at least five (5) working days in advance of all field activities conducted pursuant to the Work Plan, and shall allow the Department, or its authorized representatives, to take duplicates of any samples if desired.

11)OSP shall preserve items on the Property that may: 1) provide evidence of a Potentially Responsible Party's involvement at the Site; 2) lead to the discovery of other areas of Contamination at the Site; or 3) contain environmental information related to the Site. Such items may include drums, bottles, labels, business and operating records, contracts, Site studies, investigations, and other physical or written materials relating to the Site. OSP shall notify the Department of the location of any such items, and provide the Department with an opportunity to inspect any materials or copy any documents at the Department's expense prior to destruction of said items.

**B. Report Logistics**

- 1) Report(s) shall be prepared in accordance with accepted industry standards and shall be certified by signature and seal of a Professional Engineer or Professional Geologist duly licensed in South Carolina.
- 2) The report(s) of assessment and/or corrective measures activities shall include a discussion of investigation methods and any deviations from the Department approved Work Plan. Report(s) shall also include tables and figures to summarize all data, a surveyed map documenting sampling locations, documentation of field observations including well core logs, sample descriptions, field screening results, and all laboratory analytical data.
- 3) All report(s) shall be submitted to the Department in the form of one hardcopy and one electronic copy of the entire report on a compact disk (in .pdf format).

**C. Assess Waste Materials and Segregated Sources:**

- 1) OSP shall characterize all Waste Materials and Segregated Sources identified below. Assessment shall include an evaluation of contaminant concentrations and an estimation of the quantity or extent of each type of Waste Material or Segregated Source, as applicable, or as specified below.
  - a) The remaining in ground hydraulic lifts located inside the building.
  - b) The oil water separator and its contents located at the northwestern corner

of the building.

- c) The 55 gallon drums located inside the building.
- 2) OSP shall also characterize for disposal any other Waste Material and Segregated Sources that may be discovered on the Property at any time during assessment, corrective action, or development activities in accordance with applicable regulations.
- 3) Upon discovery of any Segregated Source that has not yet released all of its contents to the environment, OSP shall expeditiously stabilize or remove the Segregated Source from the Property.
- 4) OSP shall immediately notify the Department if a release of Contamination occurs as a result of its assessment, stabilization or removal actions. OSP shall assess the impact of the release and take necessary action in accordance with a Department approved plan.

D. Conduct a well survey:

- 1) OSP shall map all public and private wells used for drinking water supply within a one-half mile radius of the Property, and wells used for irrigation or other non-drinking water use within a one-quarter mile radius.
- 2) OSP shall report sufficient information to the Department to allow the Department to secure permission to sample the wells. At a minimum, this information shall include the: 1) Location of the well; 2) Identity and mailing address of the well owner; and, 3) Telephone number, if publicly available or otherwise known to OSP, of the well owner or occupant of the residence served by the well.

E. Assess soil quality across the Property:

- 1) OSP shall collect and analyze a minimum of 9 soil samples from 5 locations on the Property. OSP shall collect one surface soil sample (0-1 foot below ground surface) and one subsurface soil sample (2 foot minimum depth) from each of the following locations:

- a) In proximity to the oil water separator located at the northeastern corner of the building.
  - b) The area with observed staining located in the wash down pad runoff area on the western side of the building.
  - c) The western portion of the Property adjacent to the southwestern corner of the building.
  - d) The eastern portion of the property.
  - e) The approximate depth of one of the in ground hydraulic lift located inside the building. This shall be a subsurface sample only.
- 2) Unless otherwise specified above, each surface soil sample shall be analyzed for TAL-Metals and SVOCs. Each subsurface sample shall be analyzed for TAL-Metals, VOCs and SVOCs. A minimum of one surface and one subsurface samples from the wash down pad runoff area shall be analyzed for the full EPA-TAL (includes cyanide) and EPA-TCL.
  - 3) Soil quality results shall be compared to the EPA RSL Resident and Industrial Screening Levels and to the applicable Protection of Groundwater SSL.

F. Assess groundwater quality:

- 1) OSP shall assess groundwater quality and flow direction across the Property. Assessment shall include samples from a minimum of 3 temporary monitoring wells. Specific locations shall be as follows:
  - a) In proximity to the oil water separator located at the northeastern corner of the building.
  - b) The western portion of the Property adjacent to the southwestern corner of the building.
  - c) The eastern portion of the Property.
- 2) Samples from all groundwater monitoring wells shall be analyzed for TAL-Metals, VOCs and SVOCs. In addition, one groundwater sample shall be analyzed for the full EPA-TAL (includes cyanide) and EPA-TCL.
- 3) Groundwater quality results shall be compared to the primary maximum

contaminant level (MCL) standards in the State Primary Drinking Water Regulations, 4 S.C. Code Ann. Regs. 61-58 (2011 & Supp. 2015), or, if not specified in R.61-58, to the EPA RSL for "Tapwater."

G. Evaluate and control potential impacts to indoor air:

- 1) OSP shall evaluate potential impacts to indoor air if the Department determines that the concentrations of VOCs present in the subsurface pose a threat to indoor air quality based on EPA OSWER "Technical Guide for Assessing and Mitigating the Vapor Intrusion Pathway from Subsurface Vapor Sources to Indoor Air" dated June 2015 and supplemental EPA guidance ("Vapor Intrusion Technical Guide"). The Department's decision will be constrained towards predicting commercial exposures consistent with the building construction existing on the Property.
- 2) If required, OSP shall submit a Vapor Intrusion Assessment Work Plan followed by a report of the results.
  - a) For existing buildings, OSP's evaluation of vapor intrusion risk shall, unless otherwise agreed to by the Department, consist of collection and analysis of a representative number of indoor air, soil gas, and sub-slab soil gas samples over areas potentially subject to vapor intrusion. Assessment activities shall also include evaluation of other factors that may affect vapor intrusion as discussed in the Vapor Intrusion Technical Guide.
  - b) Indoor air samples shall be collected from within the building during a minimum of two separate sampling events approximately six months apart. One sampling event shall be in the winter. The samples collected for laboratory analysis may use either active or passive collection methods provided the same protocol is used for both sampling events.
  - c) All indoor air, soil gas and sub-slab soil gas samples shall be analyzed for all site related volatile compounds by appropriate methods capable of detecting concentrations at screening levels indicative of a  $10^{-6}$  cancer risk or a hazard quotient of 1 (or 0.1 as applicable) for non-carcinogens, and

using appropriate attenuation factors for soil gas and sub-slab soil gas.

- d) Indoor air quality results shall be compared to the current EPA RSL Resident Air and Industrial Air Screening Levels. The Department shall give reasonable consideration of data or other demonstration that shows unacceptable exposures inside the building do not result from the subsurface conditions.
  - e) Soil gas and sub-slab soil gas sampling results shall be compared to screening levels indicative of a  $10^{-6}$  cancer risk or a hazard quotient of 1 (or 0.1 as applicable) for non-carcinogens for the proposed use of the Property. Comparison criteria shall be based on the Vapor Intrusion Technical Guide.
- 3) Should the results of the Vapor Intrusion Assessment indicate that contaminant concentrations exceed levels indicative of a  $10^{-6}$  cancer risk or a hazard quotient/hazard index of 1 for non-carcinogens for the proposed use of the Property, OSP shall evaluate options for corrective measures and engineering controls to ensure acceptable indoor air quality. At a minimum, OSP shall propose and implement engineering controls to mitigate contaminant vapor intrusion to meet acceptable levels in accordance with Paragraph 4.H of this Contract.
- 4) The Department may allow OSP to implement pre-emptive vapor intrusion mitigation measures in lieu of the above Vapor Intrusion Assessment. Vapor intrusion mitigation measures shall be completed and evaluated in accordance with Paragraph 4.H of this Contract.

H. Institute reasonable Contamination control measures:

- 1) OSP shall remove from the Property and properly dispose of all Waste Materials and Segregated Sources of Contamination in accordance with applicable regulations based on characterization results.
  - a) Waste Materials and Segregated Sources known to be present on the Property and that require removal include, but may not be limited to, the following:

- i. The remaining in ground hydraulic lifts located inside the building.
    - ii. The oil water separator and its contents located at the northwestern corner of the building.
    - iii. The 55 gallon drums located inside the building.
  - b) OSP shall document the characterization results and ultimate disposition of the materials to the Department within sixty (60) days of removal of any material from the Property.
  - c) Subject to Department approval, buried Waste Materials, if present, may be stabilized in place on the Property in a manner that will effectively limit or prevent human exposure and release of contaminants to the environment. If any Waste Materials are to be stabilized in place, OSP shall propose plans for stabilization of the Waste Materials in a Corrective Measures Plan in accordance with Paragraph 4.H.2 below. OSP shall also enter into a Declaration of Covenants and Restrictions to document the area of stabilization, and to maintain the stabilization measures in accordance with Paragraph 9 of this Contract.
- 2) OSP shall take reasonable measures to effectively limit or prevent human exposure to Existing Contamination in any media on the Property. The corrective measures shall be proposed in a Corrective Measures Plan to be approved by the Department prior to implementation, and shall be consistent with the intended future use of the Property.
- a) Corrective measures shall be required for Contamination present in any media on the Property with concentrations in excess of appropriate human-health risk-based exposure standards with plausibly complete routes of exposure.
  - b) OSP may request Department approval to conduct a site-specific risk assessment to determine levels of Contamination that are acceptable for the intended use of the Property. The risk assessment shall be conducted in accordance with EPA Risk Assessment Guidance for Superfund. Prior to conducting the risk assessment, OSP shall submit for Department

approval, an overview of risk assessment assumptions including identification of Contamination exposure routes, the type and duration of possible exposures, the magnitude of exposure, and any data gaps that need to be addressed to complete the risk assessment.

- c) Corrective measures may include removal, encapsulation, barriers, or other methods reasonably expected to limit human exposures to the Contamination. Subject to Department approval, corrective measures may include a land use restriction in accordance with Paragraph 9 (Declaration of Covenants and Restrictions) of this Contract
  - d) If required, vapor intrusion control measures shall be designed to effectively mitigate vapor intrusion risk to a  $10^{-6}$  risk for carcinogens and a hazard quotient/hazard index of 1 for non-carcinogens based on current EPA RSLs and guidance on vapor intrusion. All vapor intrusion control measures shall include monitoring to confirm that the vapor mitigation system is effective, and procedures to ensure and document proper and effective operation and maintenance of the vapor intrusion mitigation system for as long as it is required at the Property. The Department shall give reasonable consideration of data or other demonstration that shows any unacceptable indoor air contaminant concentrations do not result from the subsurface conditions.
  - e) Upon completion of any corrective measures, OSP shall provide a Corrective Measures Report to document satisfactory completion of the corrective measures for Department review and approval prior to obtaining a Certificate of Completion.
- 3) In the event that development of the Property will require disturbance of contaminants in soil or groundwater, OSP shall propose a Media Management Plan. The Media Management Plan shall address management of contaminated media when encountered on the Property, its characterization if necessary for offsite disposal, and identification of the final disposal location for all contaminated media.

- 4) In the event that corrective measures include engineering controls that must be maintained and monitored for future use of the Property, a Stewardship Plan may be required by the Department. If required, the Stewardship Plan shall identify procedures for management of contaminated media that may be encountered as a result of any disturbance of the engineering controls, and for repair or replacement of the engineering controls.

I. Monitor and/or abandon the monitoring wells:

- 1) OSP shall implement a groundwater-monitoring program if required by the Department. Continued monitoring requirements will be based on the Department's determination of potential adverse effects on nearby receptors, i.e., individuals that are presently or potentially exposed to Contamination.
- 2) The Department will determine the frequency and duration of the monitoring program on a case-specific basis.
- 3) OSP shall abandon the monitoring well(s) when the Department determines there are no further needs for wells. The wells shall be abandoned in accordance with South Carolina Well Standards, 6 S.C. Code Ann. Regs. 61-71 (2012 & Supp. 2016).

HEALTH AND SAFETY PLAN

5. OSP shall prepare and submit under separate cover from the Work Plan, a Health and Safety Plan consistent with Occupational Safety and Health Administration regulations. The Health and Safety Plan shall be submitted to the Department in the form of one electronic copy on compact disk (in .pdf format). OSP agrees that the Health and Safety Plan is submitted to the Department only for informational purposes. The Department expressly disclaims any liability that may result from implementation of the Health and Safety Plan by OSP.

PUBLIC PARTICIPATION

6. OSP and the Department will encourage public participation to implement this

Contract as follows:

- A. The Department will provide notice, seek public comment, and initiate a thirty (30) day claim contribution notification period in accordance with established procedures consistent with S.C. Code Ann. § 44-56-750 upon signature of this Contract by OSP.
- B. OSP shall erect a sign at major entrances onto the Property or other locations routinely accessible by the public. The sign(s) shall be erected no later than one (1) day after the Department's public announcement about the Contract in a newspaper of general circulation in the community.
  - 1) The sign(s) will state "Voluntary Cleanup Project by OS Performance Shop, LLC under Voluntary Cleanup Contract 16-6434-NRP with the South Carolina Department of Health and Environmental Control." The sign(s) shall provide a brief description of the scope of activities under the Contract, and contact information, including telephone number and address, for a representative of OSP. Contact information for the Department shall state "TOLL-FREE TELEPHONE: 1-866-576-3432".
  - 2) All sign lettering must be of sufficient size to be legible with un-aided normal eyesight from the point where the public will normally pass by the Property without intruding onto the Property.
  - 3) OSP shall submit photographs of the sign(s) and a Property drawing showing the location(s) of the sign(s). The photographs shall be submitted to the Department within ten (10) days of erecting the sign(s).
  - 4) OSP agrees to revise the sign if the Department determines the sign is inaccurate, not legible, or otherwise ineffectively placed.
  - 5) OSP shall maintain the sign(s) in legible condition and at visible locations throughout the duration of the Contract period until a Certificate of Completion is issued on the Property.
  - 6) The sign(s) may be removed to accommodate building or grading activities;

however, OSP shall restore the sign(s) within two (2) days to its original location, or other publicly accessible location upon notice to the Department.

#### PROGRESS UPDATES

7. OSP shall submit periodic written updates to the Department's project manager until such time as all activities related to the Property are complete pursuant to this Contract. The first update shall be due within 90 days of the execution date of this Contract and semi-annually thereafter.
  - A. The updates may be in summary letter format, but should include information about:
    - 1) The actions taken under this Contract during the previous reporting period;
    - 2) Actions scheduled to be taken in the next reporting period;
    - 3) Sampling, test results, and any other data in summary form, generated during the previous reporting period regardless of whether the data was collected pursuant to this Contract; and,
    - 4) A description of any environmental problems experienced during the previous reporting period and the actions taken to resolve them.
  - B. The Department's project manager may allow an extended schedule between updates based on case specific conditions.

#### SCHEDULE

8. OSP shall perform all activities and response actions pursuant to this Contract in an expeditious manner. In the event that circumstances cause a delay in implementation of the response actions, the Department may require implementation of interim measures to stabilize Contamination or prevent unacceptable exposures. OSP shall implement the interim measures in accordance with a Department-approved plan.

## DECLARATION OF COVENANTS AND RESTRICTIONS

9. OSP or its Beneficiaries shall enter, and record, a Declaration of Covenants and Restrictions (Declaration) for the Property to restrict the use of the Property from residential, recreational, agricultural, child day care, and adult day care use. Additional restrictions may be required based on the response actions completed under this Contract. The recorded Declaration shall be incorporated into this Contract as an Appendix and shall be implemented as follows:
  - A. The Department shall prepare and sign the Declaration prior to providing it to OSP. An authorized representative of OSP or its Beneficiaries shall sign the Declaration within ten (10) days of receipt. All signatures shall be witnessed, and signed and sealed by a notary public.
  - B. OSP or its Beneficiaries shall record the executed Declaration with the Registrar of Deeds or Mesne Conveyance for the county where the Property is located.
  - C. OSP or its Beneficiaries shall provide a copy of the recorded Declaration to the Department within sixty (60) days of the Department's execution. The copy shall show the date and Book and Page number where the Declaration has been recorded.
  - D. In the event that Contamination exceeds levels acceptable for unrestricted use (EPA RSLs for residential use and/or MCLs) on a portion of the Property, OSP or its Beneficiaries may create a new parcel of that portion of the property that will be subject to the Declaration.
  - E. The Declaration shall be noted on the master deed of any planned development for the Property and noted, or referenced thereafter, on each individual deed of property subdivided from the Property and subject to the Declaration.

- F. The Declaration shall reserve a right of entry and inspection for OSP or its Beneficiaries that may be transferred to another single individual or entity for purposes of compliance monitoring.
- 1) OSP or its Beneficiaries shall ensure that the restrictions established by the Declaration remain on any subdivided property.
  - 2) OSP or its Beneficiaries shall create a procedure to provide a single point of contact responsible for documenting current land use and compliance with the Declaration regardless of the Property's ownership status. The procedure shall be reviewed and approved by the Department before it is implemented.
- G. The Declaration shall provide that the Department has an irrevocable right of access to the Property after OSP acquires the Property, and such right of access shall remain until remediation is accomplished for unrestricted use and monitoring is no longer required. Such access shall extend to the Department's authorized representatives and all persons performing response actions on the Property under the Department's oversight.
- H. OSP or its Beneficiaries, or the individual or entity responsible for compliance monitoring, shall annually document the Property's land use and compliance with the Declaration to the Department. The report shall be submitted by May 31<sup>st</sup> in a manner and form prescribed by the Department.
- I. The Department may amend the Declaration in response to changes in law, completion of remedial actions meeting the applicable standards in effect at the time, or if other circumstances of the Property change; however, said amendment shall not be applied retroactively unless expressly provided for in the legislation. An amendment may strengthen, relax, or remove restrictions based on the EPA RSL Summary Table in effect at that time; however, the Department shall not impose a more restrictive condition based solely on changes in the EPA RSL Summary Table. An amendment to the Declaration shall be duly executed and

recorded using procedures similar to those detailed above.

#### NOTIFICATION

10. All notices required to be given by either party to the other shall be in writing. Each party shall have a continuing obligation to identify a contact person, whose name, address, and telephone number must be updated to the other party, throughout the term of the Contract. Notices by electronic mail or facsimile shall be acceptable if acknowledged in writing by the recipient; with the delivery date being the date of acknowledgment or earlier date if stated in the acknowledgment. All other forms of notice shall be deemed sufficiently given if delivered at the address shown below, or at such place or to such agent as the parties may from time to time designate in writing, by: 1) regular U.S. Mail by which notice shall be deemed to occur seven (7) days after the postmark date; 2) Certified or Registered Mail by which notice shall be deemed to occur on the date received as shown on the receipt; 3) Commercial delivery service company by which notice shall be deemed to occur on the date received as shown on the receipt; or, 4) hand delivery to the other party.

A. All correspondence, notices, work plans, and reports shall be submitted to:

Alex Fulmer, P.E.  
Bureau of Land and Waste Management  
2600 Bull Street  
Columbia, South Carolina 29201

B. All correspondence and notices to OSP shall be submitted to OSP's designated contact person who as of the effective date of this Contract shall be:

Ken Hanneman  
5903 Oak Street

FINANCIAL REIMBURSEMENT

11. OSP or its Beneficiaries shall reimburse the Department for its public participation costs and for oversight costs of activities specific to this Contract as provided by S.C. Code Ann. § 44-56-750(D). The oversight costs shall include the direct and indirect costs incurred by the Department in implementing the Voluntary Cleanup Program as related to this Contract, and any future amendments thereto, and may include costs related to this Contract and incurred by the Department prior to execution of this Contract. Invoices for oversight costs will be sent to OSP on a quarterly basis. All costs are payable within thirty (30) days of the Department's invoice submitted to:

Ken Hanneman  
5903 Oak Street  
Hanahan, South Carolina 29410

- A. Failure to submit timely payment for costs upon receipt of the Department's invoice is grounds for termination of the Contract pursuant to paragraph 16 herein.
- B. Payment for costs incurred by the Department pursuant to this Contract shall become immediately due upon termination of the Contract by any party pursuant to paragraph 16 herein.

ACCESS TO THE PROPERTY

12. OSP agrees the Department has an irrevocable right of access to the Property for environmental response matters after OSP acquires the Property and during the term of the Lease. The current owners consent to such access during their ownership. This right of access remains until such time as remediation is accomplished for unrestricted use and monitoring is no longer required, and shall extend to the

Department's authorized representatives and all other persons performing response actions on the Property under the Department's oversight.

#### CERTIFICATE OF COMPLETION AND COVENANT NOT TO SUE

13. A Certificate of Completion shall be issued to OSP or its Beneficiaries for the Property under this Contract as follows:

- A. OSP or its Beneficiaries shall request a Certificate of Completion pursuant to S.C. Code Ann. § 44-56-750(C)(1) after the response actions are completed and any required Declarations are recorded pursuant to this Contract. The request shall be in writing and shall report 1) the amount of soil that was removed or remediated on the Property; and 2) the cost of all environmental work conducted pursuant to this Contract.
- B. Pursuant to § 44-56-750(C)(1) the Department shall issue the Certificate of Completion with its covenant not to sue upon determining that OSP or its Beneficiaries has successfully and completely complied with the Contract and the voluntary cleanup approved under S.C. Code Ann. §§ 44-56-710 through 760.
- C. The Department may issue a Provisional Certificate of Completion if the substantive response actions required under this Contract are complete and a required Declaration has been recorded but all actions under this Contract have not been completed due to Property-specific circumstances.
  - 1). A Provisional Certificate of Completion will include specific performance standards that OSP or its Beneficiaries shall continue to meet.
  - 2). The Provisional Certificate of Completion may include the Department's covenant not to sue for Existing Contamination; however, said covenant shall be automatically revoked if OSP or its Beneficiaries do not satisfactorily complete the requirements of the Contract as stipulated in the Provisional Certificate of Completion.

#### ECONOMIC BENEFITS REPORTING

14. OSP or its Beneficiaries shall report information to the Department that demonstrates that the activities pursuant to this Contract have been beneficial to the State and community. The report shall be submitted within two (2) years after the execution date of this Contract, and annually thereafter until two (2) years after redevelopment of the Property is complete. OSP shall summarize the new operations at the Property, the number of jobs created, the amount of property taxes paid, and the total amount invested in the Property for property acquisition and capital improvements.

#### CONTRACT OBLIGATIONS AND PROTECTIONS INURE

15. The terms, conditions, obligations and protections of this Contract apply to and inure to the benefit of the Department, OSP, and its Beneficiaries as set forth below. The following stipulations apply to ensure the transition of all obligations and protections to successive Beneficiaries for any portion of the Property:
  - A. OSP or its Beneficiaries shall provide a copy of this Contract and applicable Appendices to any subsequent Beneficiary. Transmittal of the Contract copy may be via any commonly accepted mechanism.
  - B. OSP and its Beneficiaries shall not allow residential occupancy on any portion of the Property prior to obtaining the Certificate of Completion or a Provisional Certificate of Completion specific to that portion of the Property allowing residential occupancy.
  - C. If the Certificate of Completion has not been issued, OSP or its Beneficiaries shall request approval from the Department prior to transferring the obligations and protections of this Contract to a new person or entity. The Department shall not unreasonably withhold its approval upon receipt of a Non-Responsible Party

Application for Voluntary Cleanup Contract documenting that the new person or entity:

- 1). Is not a Responsible Party for the Site;
- 2). Has sufficient resources to complete the activities of this Contract;
- 3). Will not use the Property for activities that are inconsistent with the terms and conditions of this Contract;
- 4). Will assume the protections and all obligations of this Contract; and,
- 5). Will, in the Department's sole discretion, provide a measurable benefit to the State and the community as a result of this transfer.

D. If the Certificate of Completion has been issued and the portion of the Property is subject to a Declaration or other ongoing obligation pursuant to this Contract, OSP or its Beneficiaries shall provide written notification to the Department identifying the new individual or entity within thirty (30) days after the effective date of the ownership change or other possessory transfer of the Property.

- 1). The notification shall include a signed statement from the new individual or entity that its use of the Property will remain consistent with the terms of the Contract and the Declaration, and that it will assume the ongoing obligations and protections of this Contract.
- 2). This requirement is waived for an individual or entity acquiring a portion of the Property for individual commercial use provided the Declaration is noted on the master deed for the planned development, and the Department has approved the procedure for a single point of contact responsible for documenting current land use and compliance with the Covenant.

#### CONTRACT TERMINATION

16. OSP, its Beneficiaries, and the Department each reserve the right to unilaterally terminate this Contract by giving thirty (30) days advance written notice to the other party. Termination shall be subject to the following:

- 1
- A. The Department may not terminate this Contract without cause and before termination, shall provide OSP or its Beneficiaries an opportunity to correct the cause(s) for termination, which may include, but is not limited to, the following:
- 1). Failure to complete the terms and conditions of this Contract;
  - 2). Change in OSP's or its Beneficiaries' business activities on the Property or use of the Property that are inconsistent with the terms and conditions of this Contract;
  - 3). Failure to submit timely payment for costs upon receipt of the Department's invoice;
  - 4). Failure of OSP or its Beneficiaries to implement appropriate response actions for additional Contamination or releases caused by OSP or its Beneficiaries;
  - 5). Knowingly providing the Department with false or incomplete information or knowing failure to disclose material information;
  - 6). Failure by OSP or its Beneficiaries to obtain the applicable permits from the Department for the response actions or other activities undertaken at the Property pursuant to this Contract; or,
  - 7). Failure by OSP or its Beneficiaries to make material progress toward the expansion, redevelopment, or reuse of the property as determined by the Department upon consideration of OSP's or its Beneficiaries' marketing efforts, regional economic conditions, and other pertinent information on the Property.
- B. Should OSP or its Beneficiaries elect to terminate, that party shall certify to the Department's satisfaction that any environmental or physical hazards caused or contributed by OSP or its Beneficiaries have been stabilized or mitigated such that the Property does not pose hazards to human health or the environment.
- C. Termination of this Contract by any party does not waive the Department's authority to require response action under any applicable state or federal law.

- D. Termination of this Contract by any party does not end the obligations of OSP or its Beneficiaries to pay costs incurred by the Department pursuant to this Contract. Payment for such costs shall become immediately due.
- E. Upon termination, the protections provided under this Contract shall be null and void as to any party who participated in actions giving rise to termination of the Contract. Revocation of protections shall also apply to that party's lenders, parents, subsidiaries, and successors, including lessees, heirs, devisees, and other parties taking an interest in the Property through that party who participated in actions giving rise to termination of the contract. The protections will continue for any party who has received protections through a Certificate of Completion for this Contract, and who did not participate in the actions giving rise to the termination.

#### ENTITLEMENT OF PROTECTIONS AND BENEFITS

17. OSP and its Beneficiaries are entitled to the protections and benefits in regard to Existing Contamination provided by South Carolina statutes as follows:

- A. Effective on the date this Contract is first executed by the Department:
  - 1). Protection from contribution claims under CERCLA § 113, 42 U.S.C. § 9613 and SCHWMA § 44-56-200.
  - 2). Protection from third-party claims as provided by S.C. Code Ann. § 44-56-750(H).
  - 3). Eligibility to file annual application for Voluntary Cleanup Activity Tax Credits pursuant to the Income Tax Act, S.C. Code Ann. § 12-6-3550 (2014).
- B. Effective on the date the Certificate of Completion is issued by the Department.
  - 1). The Department's covenant not to sue OSP and its Beneficiaries for Existing Contamination but not for any Contamination, releases and consequences caused or contributed by OSP or its Beneficiaries.
  - 2). Specific tax credits or additional benefits expressly contingent in South

Carolina statutes on issuance of the Certificate of Completion.

- C. These Protections and Benefits do not apply to any Contamination, releases, and consequences caused or contributed by OSP or its Beneficiaries. The Department retains all rights under State and Federal laws to compel OSP and its Beneficiaries to perform or pay for response activity for any Contamination, releases and consequences caused or contributed by OSP or its Beneficiaries.

#### RESERVATION OF RIGHTS BY THE DEPARTMENT

18. Nothing in this Contract is intended to be, or shall be construed as, a release or covenant not to sue for any claim or cause of action, past or future, that the Department may have against any person, firm, or corporation other than OSP and its Beneficiaries. The Department reserves the right to undertake future response actions at the Site and to seek to compel parties, other than OSP and its Beneficiaries, to perform or pay for response actions at the Site. Nothing in this Contract shall in any way restrict or limit the nature or scope of response actions that may be taken or be required by the Department in exercising its authority under State and Federal law.

#### RESERVATION OF RIGHTS BY OSP

19. OSP retains all rights to assert claims in law or equity against any person, company, or entity with respect to the Property, except as limited elsewhere by this Contract. OSP and its Beneficiaries specifically deny responsibility for response costs or damages resulting from Existing Contamination except for Contamination, releases, and consequences they cause or contribute. However, OSP and its Beneficiaries agree to undertake the requirements of this Contract.

#### BURDEN OF PROOF

20. OSP and its Beneficiaries shall have the continuing obligation to demonstrate that any newly discovered Contamination is not caused or contributed by OSP or its

Beneficiaries. OSP and its Beneficiaries shall make this demonstration to the Department's satisfaction in accordance with State or Federal Law applicable to such newly discovered Contamination. For purposes of this clause, newly discovered Contamination means finding types of Contamination not previously identified at the Property or substantially higher concentrations of Existing Contamination.

LIMITATION OF CLAIMS BY OSP AND ITS BENEFICIARIES

21. In consideration of the protections from the Department under this Contract, OSP and its Beneficiaries agree not to assert any claims or causes of action against the Department or to seek other costs, damages, or attorney's fees from the Department arising out of activities undertaken at the Property pursuant to this Contract. This limitation shall not extend to any claims or causes of action resulting from the Department's intentional or negligent acts or omissions, or the Department's willful breach of this Contract.
